Catalog Music

The website and store for a vinyl record shop Catalog Music located in Brisbane's Fortitude Valley.

Tech Stack: REACT | MONGODB | NODE.JS | EXPRESS | MATERIALUI

Key Achievements: Built a full app for a real client front to back with user login and payment integration aswell as an administrative dashboard.

Challenges: Intergrating both the Discogs API with data from the onsite payments through Square's API.

Link: GITHUB

Portfolio v2

Clean, single page site displaying my work and skills.

Tech Stack: REACT | THEMEUI | GSAP

Key Achievements: Integrating GSAP into a React application in a clean and modular fashion to create beautiful scrolling animations.

Challenges: See above...

VLX

A Rails based marketplace app with CRUD features for users to buy and sell used vinyl records.

Tech Stack: RUBY | RAILS | TAILWIND CSS | HEROKU

Key Achievements: Learned to interact with databases through MySQL and style with TailwindCSS.

Challenges: Working to the MVP first before adding other features
